### Story of Panic on Burning Vessel.

#### VOLTURNO DEATH LIST MAY NOT EXCEED 136

#### Terrible Tale of Suffering and Death During Gale on the Atlantic.

London, Oct. 13.—The latest accounts of the disaster to the steamship Volturno, burned and abandoned in midocean on Friday morning, confirm that the loss of life will be limited to about 136.

The Carmania, the first of the rescuing ships to reach the burning steamer, arrived off Queenstown, but owing to the gale proceeded to Fishguard.

A graphic story by the solitary survivor aboard the Carmania was received by wireless and presents a terrible picture of the horror, the panic and confusion aboard the burning liner.

Walter Trintephol, a German, who tells the story, however, is clearly suffering from the stress of illness and awful experiences and his story is too incoherent to be accepted in every detail.

Most important, if true, is his denial that two boats got away from the Volturno.

#### Captain Last to Leave Ship.

According to other accounts Captain Inch was the last to leave his vessel, which was still burning late Friday night, and was a danger to navigation. "All went well," said Trintephol, "until 6 o'clock Thursday morning when the fire alarm sounded, when we were aroused and told to go on deck as fire had broken out in the hold. In assembling lifebelts were handed around and much time was occupied in fastening them."

"We were told that the fire might soon be quenched, but the captain thought it wise for all to have belts as a precaution."

"The fire frightened the children, who cried bitterly. There were many babies in arms."

"The fire grew worse. We saw things blazing down below. About 10 o'clock there was a cry to lower the boats."

#### Says Crew Behaved Badly.

"The captain behaved splendidly. So did the officers who were English. I am sorry to say that the crew, who are Germans and Belgians, behaved very badly."

"The people rushed about wildly and the crew seemed to think they ought to have first place and instead of quieting the passengers they made the panic worse."

"The first officer took charge of the first boat, but although he wanted the women and children saved first, a majority of those who entered the boat were members of the crew."

"This boat was smashed against the ship's side. Just as it reached the water it broke in two and all were drowned."

"Meanwhile attempts were made to lower the second boat. I cannot say who was in charge of this but I do know that after the chief steward had thrown provisions in he jumped in himself. There were more men than women and children in this boat, which did not go down, for it was broken against the ship and all were drowned. These two boats were amidships."

#### People Thrown Into Water.

"Three other boats were put out on the aft. The fourth officer was in one of them, but I cannot say which one. All was confusion. The ropes broke and the people were thrown into the water and drowned or killed. When the captain saw what had happened he cut the tackle of the other boats so that they could not be launched."

"We were so glad when we saw the Carmania coming, for we said: 'Now we shall all be saved.'"

"The firemen rushed up from below and refused to go back. The captain drew his revolver and drove them below, but soon after, as the fire was spreading, they were obliged to abandon the engines."

"As soon as the Carmania was sighted the captain made all the women and children go to one side and the men to the other side. He had been compelled to leave the bridge and so aft because it was too hot. Women wept, shrieked, laughed and became hysterical."

#### Sixteen Crushed to Death.

Lemberg, Austria-Hungary, Oct. 13.—The fainting of a woman in a crowded synagogue at Chodorow, Galicia, caused a panic. Hundreds of women rushed to the doors and sixteen of them were crushed to death. Scores were injured.

### AGAINST RECESS AT THIS TIME

#### President Desires Congress to Remain in Session.

#### ATTITUDE ON CURRENCY BILL

Chief Executive Has No Idea of Fixing an Arbitrary Time When Financial Reform Measure Shall Be Enacted Into Law, but Desires Senate to Make Best Possible Speed.

Washington, Oct. 13.—President Wilson let it be known that he did not favor a recess of congress at this time, but desired continuous and uninterrupted consideration of the pending currency bill.

Various reports that the president was attempting to force the senate to act more speedily than it wished and efforts on the part of some Democratic senators to procure a recess until Nov. 15 while the senate banking and currency committee was at work on the bill brought from those close to the president a clarification of the White House position.

The president, they said, had no idea of attempting to fix an arbitrary time when the currency bill should or should not be enacted into law.

His wish, as expressed throughout his conferences with senate leaders, has been for continuous attention to the currency measure with the confidence that with concentrated effort and study the bill would be out of the senate before the beginning of the December session of congress.

While adverse to any haste that would impair the value of the currency reform, the president is anxious that if the senate can improve upon the house bill, it will proceed to do so.

He still believes, however, that this can be accomplished during the seven weeks remaining of the present session.

Efforts to bring about a recess, incidentally, have shown that a majority of the Democratic senators were opposed to the proposition.

The shooting occurred in the presence of two young men who had accompanied Mrs. Hawkins and her married daughter home from a moving picture show.

New York, Oct. 13.—Timothy L. Woodruff, former lieutenant governor of New York state, is dead. He had lain in a critical condition for nearly two weeks after having been stricken with paralysis while addressing a Progressive party rally in this city. He was fifty-five years old.

Mr. Woodruff rallied for a time from his first attack and hopes were entertained of his recovery.

Mr. Woodruff joined the Republican party and as a Republican he was an active political figure in New York state for nearly thirty years and, until a year ago when he left that party and joined the Progressives, his name was nearly always to be found on the roll of Republican national, state and city conventions.

As a delegate from New York in the Republican national convention of 1908 he nominated James S. Sherman for vice president.

## CONGRESS TO AID RURAL SECTIONS

### Expect Bill to Pass, Providing Educational Features.

#### MANY WARM SUPPORTERS.

Commission to Investigate and Report to Washington—Supporters Who Were Disappointed Once Before Determined That Measure Must Be Considered at Next Session.

##### By ARTHUR W. DUNN.

Washington, Oct. 13.—[Special.]—During the last congress there almost passed what was called the Smith-Lever bill or the Page bill, providing for government aid to education, particularly in rural communities, coupled with agricultural instruction. The bill failed in conference.

Congress is near passing some such measure now. It is proposed to have a commission make an investigation and report what ought to be done. By some this commission is considered as simply a method of delay; by others it is believed that the commission will furnish information which will enable congress to avoid mistakes.

The friends of the measure propose that one thing certain shall be accomplished—that is, that legislation must be passed during the next session. They will not consent to any delay which will put the matter over until the short session, as was done in the last congress, which insured its defeat.

##### The Changing Times.

Not more than eight years ago Congressman Davis of Minnesota introduced and advocated a bill similar to that which is to be enacted into law relative to vocational education. He was then a member of the committee on agriculture, where the bill was considered. Speaker Cannon did not like the bill, and at the next congress he removed Davis from the committee. At the beginning of this congress Minority Leader Mann made Davis a member of the appropriations committee, which is of higher rank, and the vocational bill which Davis first championed is to be enacted into law. "Time changes all things."

##### There Are Other Instances.

During the consideration of the cotton futures amendment to the tariff bill Congressman Humphreys of Mississippi called attention to other changes which time makes. He said that the Democratic party denounced the tax on state bank issues as unconstitutional; that it denounced the oleomargarine tax in the same strong terms, especially those from the cotton states, because cottonseed oil was hit. "And yet," he said, "the very first measure of the new Democratic administration proposes to carry a similar unconstitutional taxing provision."

However, the proposition was eliminated, but we have not heard the last of it.

##### It Is Pronounced "Pinshow."

A. Mitchell Palmer of Pennsylvania was rasping the Progressive party and spoke of a committee consisting of Theodore Roosevelt, Jane Addams and Gifford Pinchot.

He pronounced it as it is spelled, sounding the "t."

"The gentleman's pronunciation is as bad as his information," interjected the Progressive leader, Vic Murdock. "I know his name, all right," replied Palmer. "He has lived in my district all his life and voted against me every time I have been a candidate. I know his name. Up there we have Anglicized him and call him Pinch-o-t, as he calls himself."

Another Caucus.

It may take another caucus to pass the currency bill, but the administration is not afraid of caucuses. Those men who sacrificed themselves on the tariff bill want those opposing the currency bill to make some sacrifices, and they will invoke the caucus if there is no other method.

##### Party Responsibility.

"Members of this house are responsible to the people of their districts and not to any party," declared Leader Murdock of the Progressives. That may be true, but the members of the Democratic party are aware that if they do not stand by their party, as represented by the president, the people of their districts will not stand by them. That is why there has been such a solid majority for the Democratic policies during the present congress.

Pleas for the enactment of tariff bills "in the open" and without caucus restriction sound well, but it may be thoroughly understood that if every man was to have his own way, vote his own convictions, it would be difficult to pass anything like a tariff bill.

##### Committee Humorist.

Senator Nelson is the humorist of the senate lobby committee. Senator Overman has a fine sense of humor, but as chairman he is obliged to be dignified. Senators Walsh and Cummins are very serious all the time. "Life is real, life is earnest," with them. And so it falls to the Minnesota senator occasionally to inject a remark which relieves the tense situations and brings out the humorous in the questions asked.

The world's supply of emery comes from Greek islands and from Asia Minor, near Smyrna.

#### EATON TRIAL ON TUESDAY

##### Wife Is Accused of Poisoning Rear Admiral.

Plymouth, Mass., Oct. 13.—Mrs. Jennie May Eaton will be put on trial Tuesday for the murder of her husband, Rear Admiral Joseph Giles Eaton.

The prosecution contends that Mrs. Eaton gave the admiral poison with his meals at their home in Assinippi. The defense claims that he died from drugs self-administered.

So far as known the government officials have been unsuccessful in their hunt for the original container of the poison, the place where it was bought and the purchaser.

## RUSSIAN EXPLORER DISCOVERS NEW LAND

### Locates Uninhabited Region North of Siberia.

St. Michael, Alaska, Oct. 13.—The Russian flagship Taymyr and its consort, the Waygatch, which constitute a Russian polar expedition under Commander Wilkitzky, which left Vladivostok June 10 of this year, reached St. Michael stormbound Oct. 9 and brought news of the discovery to the north of Siberia in longitude 81 north, latitude 104 east, of a new uninhabited mountainous land, possibly a continent.

The expedition landed with difficulty in the new land, raised the Russian flag on it and took possession in the name of the czar. Commander Wilkitzky named the new land "Nicholas Second Land."

Commander Wilkitzky says the shore of the new country where the expedition landed and along which the vessels traveled is rocky, with high abrupt cliffs, formed evidently from volcanic activity. Volcanoes, he stated, were discernible inland from the vessels and what seemed to be vapor could be seen arising from one. The land was covered with snow almost to the sea.

In July and August the expedition saw much evidence of the presence on the land of reindeer. Many walrus were seen and bird life was plentiful. A number of polar bears also were noticed.

St. Paul, Oct. 13.—Senators Moses E. Clapp and Knute Nelson have responded to inquiries from the officers of the Minnesota Equal Suffrage association as to their attitude toward woman suffrage. Senator Clapp says he favors equal suffrage, while Senator Nelson says he is not opposed to it.

"I have always placed woman suffrage on even a broader plane than woman's right to vote," writes Senator Clapp. "Of course, I would not discuss her right to vote any more than I would discuss my own right, as that goes without saying, according to my theory of free government."

"I am not opposed to giving women the right to vote," Senator Nelson writes, "although I am not entirely reconciled to the wisdom of it in my own mind, but I have decided to give the cause the benefit of the doubt."

### Mexican Situation Demands His Immediate Attention.

#### DEPUTIES STILL IN PRISON

Minister of the Interior Hildegarde Says Lawmakers Cannot Be Released on any Writ and That They Will Be Placed on Trial for the Various Offenses of Which They Are Accused.

Knoxville, Tenn., Oct. 13.—Secretary of State Bryan and Mrs. Bryan left hurriedly for Washington. Mr. Bryan would only say that the Mexican situation demanded his immediate presence at the capital.

Mexico City, Oct. 13.—There has been endless speculation here regarding the effect of Provisional President Huerta's coup d'etat.

Many believe that the logical result will be a split in the army, which they assert has only been held together by the force of General Huerta's personality. They look for startling developments in the near future.

On the other hand, there is a large element which believe that President Huerta took the only possible course and expresses wonder that he had not taken the step long ago.

The minister of the interior, Manuel Carza Aldape, issued the following announcement:

"The deputies who have been arrested and imprisoned cannot be released on any writ. They will be tried for the various offenses of which they are accused. Not one of them has been released by the government to date. They will be treated well while in confinement."

"The dissolution of congress will not affect the holding of the elections in the least. The ballots will be cast in October. The only change in the election program will be that new senators and representatives will be elected to replace those put out of office by the coup d'etat."

Minister Aldape has assured the families of the deputies that the prisoners will be treated with consideration. They will be allowed to receive clothing, food and reading matter. They will not, however, be permitted to talk to any one, even on regular visiting days.

Detachments of troops patrol the streets, but the excitement which resulted in the coup has subsided. At no time has there been any rioting or disorder in the capital in consequence of the events of the past few days.

## TIMOTHY WOODRUFF IS DEAD

Noted New York Politician a Victim of Paralysis.

New York, Oct. 13.—Timothy L. Woodruff, former lieutenant governor of New York state, is dead. He had lain in a critical condition for nearly two weeks after having been stricken with paralysis while addressing a Progressive party rally in this city. He was fifty-five years old.

Mr. Woodruff rallied for a time from his first attack and hopes were entertained of his recovery.

Mr. Woodruff joined the Republican party and as a Republican he was an active political figure in New York state for nearly thirty years and, until a year ago when he left that party and joined the Progressives, his name was nearly always to be found on the roll of Republican national, state and city conventions.

As a delegate from New York in the Republican national convention of 1908 he nominated James S. Sherman for vice president.

The dead are Antoine Widmer, Carl Widmer, John Widmer, John Widmer, Jr., Julius Sober and Joseph Sober, his son.

George Oblinger and a man engaged to marry the boat saved their lives by clinging to the overturned skiff.

## FATALLY SCALDED IN TUB

Cleveland Retired Business Man Is Found Dead.

Cleveland, Oct. 13.—Henry W. Judd, wealthy retired business man and director in several local corporations, was scalded to death in his bathtub.

His body was found several hours later by his wife.

His bath had been prepared by a colored maid and it is supposed that he fell into the bathtub and was unable because of his enfeebled condition to climb out.

## BEDMATE A CORPSE.

Livingston, Mont., Oct. 13.—On waking Shorty Sherer found that his bedmate, Yorky Jones, was a corpse. Jones was as well as usual on retiring, his death is attributed to alcoholism. He was about fifty-five years old and his correct name was John Jones.

He had been engaged at odd jobs about town.

## Finley Escapes 'oose.

Sacramento, Cal., Oct. 13.—James W. Finley, who has spent the last eight years in the condemned cell at Folsom prison, received a commutation of sentence to life imprisonment from Governor Johnson.

A plea from Finley's aged mother in Kentucky that she be spared the disgrace of having her son hanged caused the governor to act.

## EARTH SHOCK AT MESSINA

Dance Causes Much Alarm, but No Serious Loss.

Messina, Oct. 13.—An earth shock, accompanied by distant rumblings, was felt here. The disturbance continued about ten seconds. It caused much alarm but no serious damage.

The frequency of the shocks kept the inhabitants in a constant state of anxiety.

CONGRESS TO AID  
RURAL SECTIONSExpect Bill to Pass, Providing  
Educational Features.

## MANY WARM SUPPORTERS.

Commission to Investigate and Report to Washington—Supporters Who Were Disappointed Once Before Determined That Measure Must Be Considered at Next Session.

By ARTHUR W. DUNN.

Washington, Oct. 13.—[Special.]—During the last congress there almost passed what was called the Smith-Lever bill or the Page bill, providing for government aid to education, particularly in rural communities, coupled with agricultural instruction. The bill failed in conference.

Congress is near passing some such measure now. It is proposed to have a commission make an investigation and report what ought to be done. By some this commission is considered as simply a method of delay; by others it is believed that the commission will furnish information which will enable congress to avoid mistakes.

The friends of the measure propose that one thing certain shall be accomplished—that is, that legislation must be passed during the next session. They will not consent to any delay which will put the matter over until the short session, as was done in the last congress, which insured its defeat.

## The Changing Times.

Not more than eight years ago Congressman Davis of Minnesota introduced and advocated a bill similar to that which is to be enacted into law relative to vocational education. He was then a member of the committee on agriculture, where the bill was considered. Speaker Cannon did not like the bill, and at the next congress he removed Davis from the committee. At the beginning of this congress Minority Leader Mann made Davis a member of the appropriations committee, which is of higher rank, and the vocational bill which Davis first championed is to be enacted into law. "Time changes all things."

## There Are Other Instances.

During the consideration of the cotton futures amendment to the tariff bill Congressman Humphreys of Mississippi called attention to other changes which time makes. He said that the Democratic party denounced the tax on state bank issues as unconstitutional; that it denounced the oleomargarine tax in the same strong terms, because cottonseed oil was hit. "And yet," he said, "the very first measure of the new Democratic administration proposes to carry a similar unconstitutional taxing provision."

However, the proposition was eliminated, but we have not heard the last of it.

## It Is Pronounced "Pinshow."

A. Mitchell Palmer of Pennsylvania was rasping the Progressive party and spoke of a committee consisting of Theodore Roosevelt, Jane Addams and Gifford Pinchot.

He pronounced it as it is spelled, sounding the "t."

"The gentleman's pronunciation is as bad as his information," interjected the Progressive leader, Vic Murdock.

"I know his name, all right," replied Palmer. "He has lived in my district all his life and voted against me every time I have been a candidate. I know his name. Up there we have Anglicized him and call him Pin-ch-o-t, as he calls himself."

## Another Caucus.

It may take another caucus to pass the currency bill, but the administration is not afraid of caucuses. Those men who sacrificed themselves on the tariff bill want those opposing the currency bill to make some sacrifices, and they will invoke the caucus if there is no other method.

## Party Responsibility.

"Members of this house are responsible to the people of their districts and not to any party," declared Leader Murdock of the Progressives. That may be true, but the members of the Democratic party are aware that if they do not stand by their party, as represented by the president, the people of their districts will not stand by them. That is why there has been such a solid majority for the Democratic policies during the present congress.

Pleas for the enactment of tariff bills "in the open" and without caucus restriction sound well, but it may be thoroughly understood that if every man was to have his own way, vote his own convictions, it would be difficult to pass anything like a tariff bill.

## Committee Humorst.

Senator Nelson is the humorist of the senate lobby committee. Senator Overman has a fine sense of humor, but as chairman he is obliged to be dignified. Senators Walsh and Reid and Cummins are very serious at all times. "Life is real, life is earnest," with them. And so it falls to the Minnesota senator occasionally to inject a remark which relieves the tense situations and brings out the humorous in the questions asked.

The prosecution contends that Mrs. Eaton gave the admiral poison with his meals at their home in Assinippi. The defense claims that he died from drugs self-administered.

So far as known the government officials have been unsuccessful in their hunt for the original container of the poison, the place where it was bought and the purchaser.

RUSSIAN EXPLORER  
DISCOVERS NEW LANDLocates Uninhabited Region  
North of Siberia.

St. Michael, Alaska, Oct. 13.—The Russian flagship Taymir and its consort, the Waygatch, which constitute a Russian polar expedition under Commander Wilkitzky, which left Vladivostok June 10 of this year, reached St. Michael stormbound Oct. 9 and brought news of the discovery to the north of Siberia in longitude 81 north, latitude 104 east, of a new uninhabited mountainous land, possibly a continent.

The expedition landed with difficulty in the new land, raised the Russian flag on it and took possession in the name of the czar. Commander Wilkitzky named the new land "Nicholas Second Land."

Commander Wilkitzky says the shore of the new country where the expedition landed and along which the vessels traveled is rocky, with high abrupt cliffs, formed evidently from volcanic activity. Volcanoes, he stated, were discernible inland from the vessels and what seemed to be vapor could be seen arising from one. The land was covered with snow almost to the sea.

In July and August the expedition saw much evidence of the presence on the land of reindeer. Many walrus were seen and bird life was plentiful. A number of polar bears also were noticed.

## DEPUTIES STILL IN PRISON

Minister of the Interior Ildape Says Lawmakers Cannot Be Released on any Writ and That They Will Be Placed on Trial for the Various Offenses of Which They Are Accused.

## Mexico City, Oct. 13.—There has been endless speculation here regarding the effect of Provisional President Huerta's coup d'etat.

Many believe that the logical result will be a split in the army, which they assert has only been held together by the force of General Huerta's personality. They look for startling developments in the near future.

On the other hand, there is a large element which believe that President Huerta took the only possible course and expresses wonder that he had not taken the step long ago.

The minister of the interior, Manuel Carza Aldape, issued the following announcement:

"The deputies who have been arrested and imprisoned cannot be released on any writ. They will be tried for the various offenses of which they are accused. Not one of them has been released by the government to date. They will be treated well while in confinement.

"The dissolution of congress will not affect the holding of the elections in the least. The ballots will be cast in October. The only change in the election program will be that new senators and representatives will be elected to replace those put out of office by the coup d'etat."

Minister Aldape has assured the families of the deputies that the prisoners will be treated with consideration. They will be allowed to receive clothing, food and reading matter. They will not, however, be permitted to talk to any one, even on regular visiting days.

Detachments of troops patrol the streets, but the excitement which resulted in the coup has subsided. At no time has there been any rioting or disorder in the capital in consequence of the events of the past few days.

## GIVE VIEWS ON SUFFRAGE

Senators Clapp and Nelson Favor Women Voting.

St. Paul, Oct. 13.—Senators Moses E. Clapp and Knute Nelson have responded to inquiries from the officers of the Minnesota Equal Suffrage association as to their attitude toward woman suffrage. Senator Clapp says he favors equal suffrage, while Senator Nelson says he is not opposed to it.

"I have always placed woman suffrage on even a broader plane than woman's right to vote," writes Senator Clapp. "Of course, I would not discuss her right to vote any more than I would discuss my own right, as that goes without saying, according to my theory of free government."

"I am not opposed to giving women the right to vote," Senator Nelson writes, "although I am not entirely reconciled to the wisdom of it in my own mind, but I have decided to give the cause the benefit of the doubt."

Whereas, the City Council of the City of Brainerd, Minnesota, did, on the first day of October, 1906, pass an ordinance known as Ordinance No. 208, granting to Horace F. Mann, his heirs and assigns, the privilege of establishing, maintaining and operating, within the limits of the City of Brainerd, for the term of twenty

(20) years from date of publication of said Ordinance, a switch-board and telephone exchange, and for that purpose to erect necessary poles and stretch necessary wires thereon in or upon or over the streets of said city, and for no other purpose, under certain terms and conditions as therein specified, among which appear these express conditions:

And it is hereby further resolved, that all the rights and privileges granted in and by said Ordinance No. 208 to said Horace F. Mann, his heirs and assigns, be and the same are hereby revoked, annulled and terminated.

A POLE LINE TO ORELAND

Cause for Good Roads Under the Elwell Law is Presented to County Commissioners

Deerwood, Minn., Oct. 10.—W. H. Kruse, a plasterer of Crosby, has commenced a personal injury suit against Thomas Keating, alleging that he was injured by rock hurled at him from a blast set off in Keating's addition in Crosby, where stumps and rocks were being cleared.

The Cuyuna Range Power Co. is building its pole line to Oreland and current will soon be supplied the town.

Charles Oberg, Gust Oberg, Tom DeRoche and Herman Peterson attended "The Common Law" played at the Brainerd opera house, motoring to the county seat in 55 minutes.

Fred Carlson of Utah and Art Carlson, of Deerwood, were Brainerd visitors Wednesday.

Miss Esther Theorin, deputy clerk of the district court at Brainerd, is enjoying her vacation with her parents.

Charles G. Osterlund, Olson Skau, John McManus, Homer Mussey and others presented the cause of good roads under the Elwell law at the meeting of the county commissioners. All are representatives of the Deerwood Good Roads association.

Get rid of the torments of rheumatism

That you can do by ridding yourself of the cause. Weak and inactive kidneys allow uric acid poisons to remain in the blood and rheumatic pains swollen and aching joints follow. Take Foley Kidney Pills to ease you of the pain and torment. They will positively and permanently build up the kidneys, restore their normal action and keep the uric acid crystals out of the blood and body. Try them. H. P. Dunn.—Advt. mwf

Facing a Serious Proposition

The man or woman who has kidney trouble is facing a serious proposition, where grave complications readily follow neglect. Foley Kidney Pills are an honest curative medicine that once taken into your system mean restored kidney and bladder action, and a return of health and strength. H. P. Dunn.—Advt. mwf

# MINNY CENTRAL GETTING BUSY

Vice President Authorized to Employ an Engineering Staff of Seven Men

## MAY SURVEY ROUTE THIS FALL

Dr. Joseph Nicholson to be Chief Surgeon and George H. Gardner Local Counsel

Special to the Dispatch

Duluth, October 13.—It was learned today that at a meeting of the directors of the Minnesota Central Railway company at its office in the Alworth building on Saturday afternoon, Joseph Ferrier, vice president and treasurer, was authorized to employ an engineering staff of seven men. Mr. Ferrier said today that the engineers may begin surveying the line on the Cuyuna range this fall and would be certain to take the fall not later than early next spring.

Dr. Joseph Nicholson, of Brainerd, was elected chief surgeon of the company, and George H. Gardner, also of Brainerd, was chosen local counsel. The Northwestern Hospital, at Brainerd, was designated as the official hospital of the railway company.

President Reid and Vice President Ferrier made a report of an extended inspection of the Mesaba electric road, which they said was doing an exceptionally heavy business and proving extremely profitable.

The Minnesota Central Railway company, of Duluth, which is a Minnesota corporation, has won its suit against the Minnesota Central Railway company, a Maine corporation having its headquarters in Minneapolis and which has a line planned from Minneapolis to St. Cloud and thence to Mille Lacs lake. The Minneapolis company changes its name to the Minneapolis and Central Minnesota Railway Company and pays all the costs of the action.

## "The Common Law"

"The Common Law" as presented at the Brainerd opera house, showed that Robert W. Chambers' sensational novel has not suffered but has really been enhanced by its dramatization. It was most capably given by a company competent in every sense of the word. The stage arrangements were made from drawings by Charles Dana Gibson.

George Kelly, as Louis Neville, gave a fine characterization of the hero and Miss Virginia Berry as Valerie West, was pleasant, girlish and charming and both rose to heights of dramatic power. Renee Noel as Rita Teevie and Marie Dantes as Mrs. Neville showed their worth as capable actors. The part of Jose Querida was presented by Paul Bell, John Burleson by E. W. Wilson, Sam Ogilvy by Ed. C. Farley and Jimmy the Janitor by Frank Pierson.

And as the curtain goes down one carries away a picture of a girl, Miss Berry, who like Maud Adams, through her sincerity and unconscious effort wins an audience.

# BRAINERD FOOTBALL PLAYER IS INJURED

Bemidji, Minn., Oct. 13.—In the game between the Athletic club of this city and the Brainerd team here Saturday, Captain Alderman of the latter club was kicked on the head and is in the care of a physician. He is expected to recover. The Brainerd players were in poor condition and lost 39 to 0.

The high school eleven of Bemidji defeated the Thief River Falls high 71 to 0.

At the residence of former Senator S. F. Alderman it was ascertained that Capt. Alderman had been struck a blow on the head in a football rush at Bemidji and that he was unconscious for some time after the accident. A physician was summoned to attend to him. He has returned to Brainerd and today is with his mother at the lakes.

Presbyterian Church has Successful Service—Bible School Work's Great Progress

# FIRST NATIONAL BANK OF BRAINERD

George D. LaBar Gets Clippings and Letter About Bush from Philadelphia Friends

## F. A. FARRAR RECEIVES LETTER

Vice-President Hears from Cashier of Central National, Philadelphia, About Bush

In this morning's mail George D. LaBar, president of the First National bank of Brainerd, received the following communication from E. F. Sheridan, president of the Sheridan Co., of Philadelphia, referring to Bush. The communication says in part:

"I enclose herewith clippings from one of our papers this morning, that may be of interest to you.

"I also noticed in the Philadelphia Record this morning an item in which your name was mentioned, as being one to congratulate our great pitcher, Bush.

"I have seen all the games personally and they have been wonders. We have to admit however, that the best one was the second game, which was won by Mathewson."

The clipping reads: "Leslie J. Bush, who answers more readily to the sobriquet of 'Bullet Joe,' because of his great speed, is not of age yet and will not reach his twentieth milestone until November 27 this year. The new hero of the 1913 World's Series was born at Brainerd, Minn., November 27, 1893, started to hurl for the high school of his town when 16 years of age, joined the Missoula, Mont., League Club in the spring of 1912, and three months later was bought by the Athletics, he joined the team in Chicago on September 15.

"The unofficial pitching records for this year give him a record of 13 victories and 7 defeats for an average of 6.50, while he participated in 19 other games in which he acted generally as relief man to some tottering brother. Leslie J. stands 5 feet 10 inches and his playing weight is 173 pounds, although his appearance belies this, he looking much smaller on the ball field than he really is."

William Post, cashier of the million dollar capital and \$3,500,000 surplus and undivided profits Central National bank of Philadelphia, writes this Bush effusion to F. A. Farrar, vice president of the First National of Brainerd:

"All fandom in and around Philadelphia will be discussing your city this winter. Brainerd, Minnesota, is surely a big spot on the map in this territory today. One of our young men here has suggested that your city should erect a conspicuous poster near the railroad which would come into view from the train, reading:

Another clipping received by Mr. LaBar from a Philadelphia banking firm reads:

## HANDING IT TO BUSH

He came unannounced from the rocky Northwest,

From o'er the horizon somewhere;

Equipped with a dollar or two in his vest,

And some sand he had garnered out there.

But his nerve was the nerve of an animate man

As he faced the big World's Series show,

With its cry and its hue, and he conquered it too.

Aye, we've all got to hand it to Joe.

He'll come unannounced from the bushes no more,

While the Mackinnon Chieftain shall reign,

For he's trampled the Giant prostrate on the floor,

Who swung at his benders in vain.

Around Coogan's Bluff they are stretching the crepe,

And there's gloom in the camp of the foe,

For the little dark horse from the West won, of course.

Aye, we've all got to hand it to Joe.

There's a smile on the face of the Mackinnon chief,

There's a rift in the clouds over here;

There are fans who are breathing a sigh of relief,

And the glooms have bought seats in the rear.

At the pulsating rosters below;

# ST. PAUL'S NEW UNION DEPOT

Special to Dispatch: St. Paul, Minn., Oct. 13.—Building equipping and opening a Union depot in less than a week is the new record which St. Paul has just established.

On Friday night, Oct. 4, the Union depot in St. Paul was burned. The fire was one of the most spectacular ever seen in the city and the building which had long served as a Union depot was totally destroyed. Fortunately no lives were lost although there were about 200 travelers in the building at the time the fire was discovered.

On Thursday, Oct. 9, a new Union depot was opened, fully equipped and even more conveniently arranged than the old one. Before the ashes of the ruins were cold hundreds of men were put to work to convert a large store building directly across the alley into a temporary station. Walls were cut through, stairways were built, a ticket office and large rest rooms were established and today business is going on as if nothing unusual had happened. Three hundred and thirty-nine passenger trains, more than 29,000 passengers and 9,000 pieces of baggage a day have been handled in spite of the fire without a single train being delayed a single minute. The 400 employees of the depot, aided by hundreds of other workmen have been on duty night and day and not a train has been delayed, not a passenger has been annoyed. The superintendent of the depot worked ninety-six consecutive hours without sleep but results were obtained and today St. Paul is better equipped to handle all business than it was before the fire.

Not one piece of baggage in the baggage room was destroyed or even wet during the fire although there were sixteen large truck loads there; not one letter was lost although 1200 tons of mail pass through the mail room in the station every day.

There is no delay in St. Paul now. Trains are running in and out as they did, transfers are being made in the same manner and passengers are taken care of in even better shape than before the fire.

### "The Common Law"

"The Common Law" as presented at the Brainerd opera house, showed that Robert W. Chambers' sensational novel has not suffered but has really been enhanced by its dramatization. It was most capably given by a company competent in every sense of the word. The stage arrangements were made after drawings by Charles Dana Gibson.

George Kelly, as Louis Neville, gave a fine characterization of the hero and Miss Virginia Berry as Valerie West, was piquant, girlish and charming and both rose to heights of dramatic power. Renee Noel as Rita Tevis and Marie Dantes as Mrs. Neville showed their worth as capable actors. The part of Jose Querida was presented by Paul Bell, John Burleson by E. W. Wilson, Sam Ogilvy by Ed. C. Faries and Jimmy the Janitor by Frank Pierson.

And as the curtain goes down one carries away a picture of a girl, Miss Berry, who like Maud Adams, through her sincerity and unconscious effort wins an audience.

## BRAINERD FOOTBALL PLAYER IS INJURED

Bemidji, Minn., Oct. 13—In the game between the Athletic club of this city and the Brainerd team here Saturday, Captain Alderman of the latter club was kicked on the head and is in the care of a physician. He is expected to recover. The Brainerd players were in poor condition and lost 39 to 0.

At the residence of former Senator S. F. Alderman it was ascertained that Capt. Alderman had been struck a blow on the head in a football rush at Bemidji and that he was unconscious for some time after the accident. A physician was summoned to attend to him. He has returned to Brainerd and today is with his mother at the lakes.
